Title:

A vision on radio over fibre

Biography:

Professor Richard Penty studied for his doctoral research in the Cambridge University Engineering Department on optical fibre devices for signal processing applications, receiving his Ph.D. in 1989.

He returned to Cambridge in 2001, having been a Professor at the University of Bristol.

His research interests include high-speed optical communications systems, WDM switched networks, optical amplifiers, high speed and high power semiconductor lasers and radio over fibre and LAN systems.

He has been an author of in excess of 500 refereed journal and conference papers and is Editor-in-Chief of IET Optoelectronics.

He is a Founder of Zinwave, a manufacturer of Active Wideband In-Building Wireless Coverage Solutions.
